Q23. • Supporters of red flag laws say they are common sense policies that would prevent dangerous and mentally ill people from hurting people. Allowing family and friends to alert law enforcement about potential risks of imminent violence could have kept the shooter in Uvalde from getting access to guns.
• Opponents of red flag laws say they are more often used to take gun rights away from law abiding people without due process than to stop mass shooters. Allowing unelected judges to take away guns based on unproven claims from spouses or family members is a violation of constitutional rights.
