

WHAT'S THE MATTER WITH KIDS TODAY?

As contrasted with their Silent Generation grandparents, Millennials are...

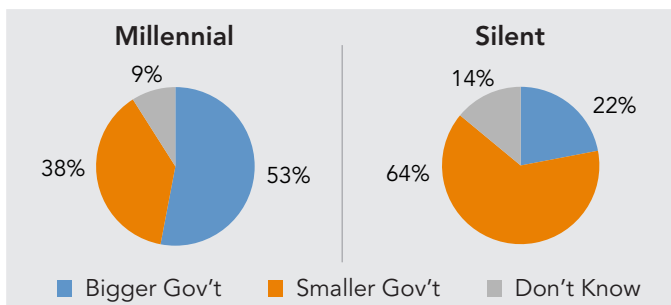

...more diverse.

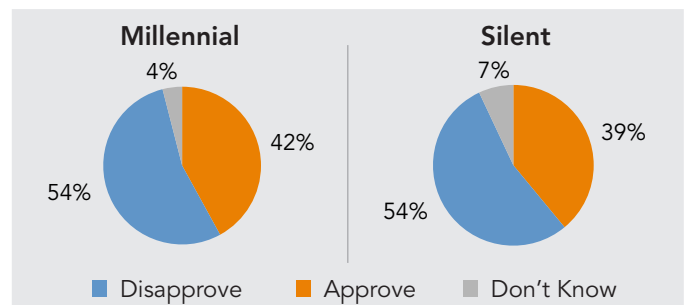

...less likely to believe in God.

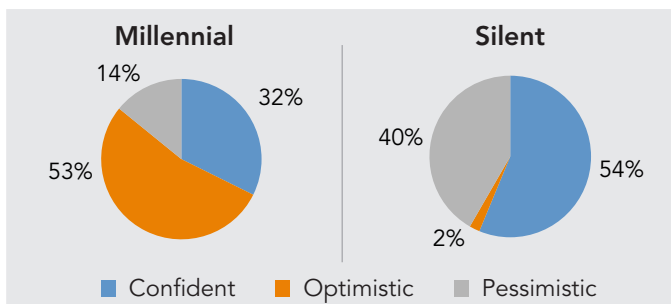

...more open to big government.

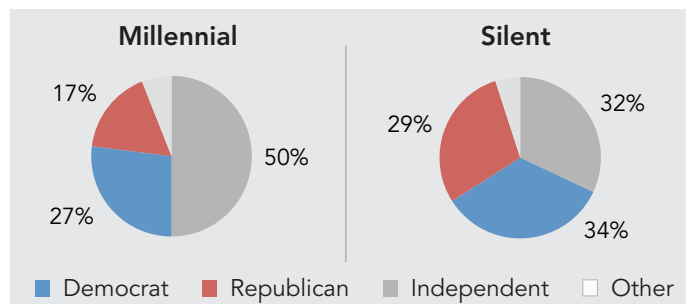

...equally skeptical of the ACA.

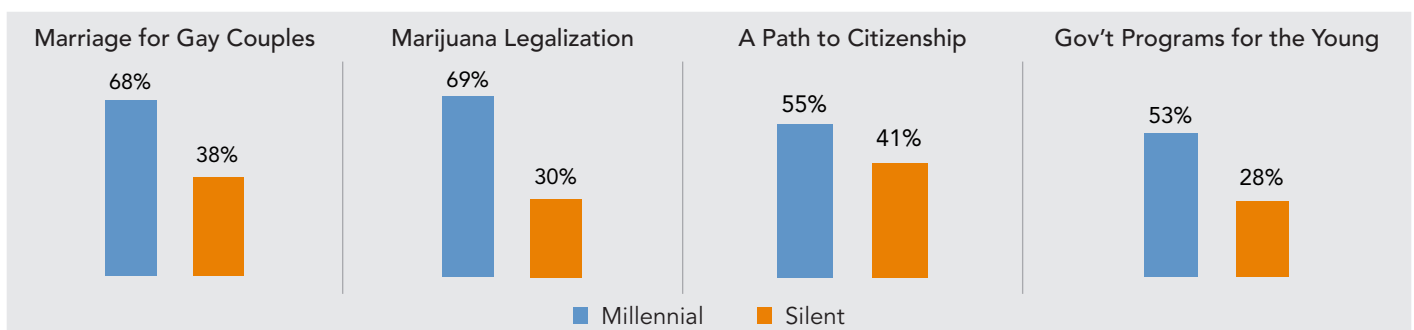

...upbeat about their financial future.

...more likely to identify as Independents.

On the hot button issues, Millennials favor...

The Millennial Generation: born after 1980, The Silent Generation: born 1928 – 1945.
